

MAXIMALISTS CONTROL RUSSIAN GOVERNMENT

Petrograd Presents Normal Aspect According to Late Reports

Kerensky Forces Holding the Winter Palace Compelled to Capitulate—Workmen and Soldiers' Delegates in Complete Control.

BULLETIN.
Petrograd, Nov. 8.—The city presented a normal aspect today. Even the moon day band accompanying the guard of relief under the previous administration continued its function. There were the customary lines in front of the provision stores and children played in the parks and gardens. There was even a noticeable lessening of the patrols only a few armed soldiers and sailors moving about the streets.

Petrograd, Nov. 8.—Government forces holding the Winter Palace were compelled to capitulate early this morning under the fire of the cruiser Aurora and the cannon of the St. Peter and St. Paul fortresses across the Neva river. At 2 o'clock this morning the woman's battalion which had been defending the winter palace surrendered. The workmen and soldiers' delegates are in complete control of the city.

Premier Kerensky was reported last night at Luga, 85 miles southwest of Petrograd. Late yesterday evening after the government forces had been driven into the winter palace the palace was besieged and a lively fight of machine guns and rifles began. The cruiser Aurora, which was moored at the Nicolai Bridge moved up within range, firing shrapnel.

Meanwhile the guns of the St. Peter and St. Paul fortress opened fire.

The palace stood out under the glare of the searchlights of the cruiser and offered a good target for the guns. The defenders held out for four hours, replying as best they could with machine guns and rifles. There was sporadic firing in other parts of the city, but the workmen and soldiers' troops took every means to protect citizens who were ordered to their quarters. The bridges and the Nevsky prospekt, which early in the afternoon were in the hands of the government forces, were captured and held during the night by the workmen and soldiers troops.

The battle at the palace which began shortly after 6 o'clock was a spectacular one, armed cars of the revolutionaries swinging into action in front of the palace gates while flames from the Neva were followed by the explosion of shells from the guns of the Aurora.

The Russian cruiser Aurora is a vessel of 6,730 tons and has a complement of 573 men. She was built in 1900 and carries ten 6-inch guns, twenty 12-pounders and eight small guns. She also is armed with two torpedo tubes.

New Power May Be Short Lived.
Washington, Nov. 8.—Concerning the overthrow of the Kerensky government the state department and the Russian embassy were without official advice tonight. Consequently there was no official comment on the station. Informally it was pointed out that with telegraph lines and semi-official news agency at Petrograd in the hands of the radicals it would be difficult to learn the true state of affairs, but there was no disposition to question the collapse of the provisional government's power.

The suggestion that the new power at Petrograd may be short lived is based partly on the belief in some quarters that if Kerensky, fleeing from the capital, should be able to bring to his support General Korniloff, the strong man of the Russian army, with his Cossack backers, he might set up a new and stronger government at Moscow and could count on loyalty of a majority of the large population there.

An obstacle to the success of such a plan is found in the possibility that Korniloff, embittered by treatment by Kerensky, when Kerensky was vacillating between the radicals and the conservatives, might refuse to risk his future on such an uncertain leader.

Some officials think compromising by Kerensky was largely responsible for his disaster.

In view of the intensity of the Democratic spirit developed in Russia since the overthrow of the Czar it is regarded here as difficult to conceive of any form of government other than a republic, yet in diplomatic circles where the peculiar temperament of the Russian masses is well understood the opinion is expressed that, weary of revolutions and anarchy the majority of the people might decide to confide their destinies to a dictator, thereby following foot steps of radicals in the French revolution.

Recalling that even the Bolsheviks have declared for "a Democratic peace" (which is opposed to the German idea) it is believed hardly possible that Germany could entertain proposals from Maximilists for a peace or armistice. It is pointed out too that even if the Germans made separate peace with Maximilists the fact this party represents only a small section of the Russian people would make it necessary for the central powers to continue a large military guard on the border. Therefore it is hoped the military situation will not change materially for the worse for the entente powers and America as a result of these latest developments. If a considerable part of the Russian army can

CLAIM BIG PACKERS ARE NOT PLAYING FAIR

Chicago, Nov. 8.—Intimation that the big packers have not been playing exactly fair with the food administration in the matter of canned vegetables was contained in an order from Washington today directing Harry A. Wheeler, state food administrator, to look into the stocks held by the packers. It is particularly desired to know when the stocks were put up, and the prices paid at the times as compared with present prices.

The packers are said to be the biggest canners of vegetable products in the country, and thus to control prices.

ATTEMPT TO WRECK I. C. ARMY SPECIAL

Train Strikes Pile of Ties On Track "Somewhere in Illinois"

Train was Carrying 250 Camp Grant Men On Way to Texas—Attempt Attributed to Lack of Restrictions in Discussing Troop Movements Publicly.

Rockford, Ill., Nov. 8.—An unsuccessful attempt to wreck a special train on the Illinois Central carrying 250 drafted men from Camp Grant today was attributed to lack of proper restriction in discussing troop movements publicly. It was said that a pile of ties on the track somewhere in Illinois were struck and scattered soon after the train left Camp Grant for Texas.

The train escaped wreck only because the ends of the ties did not meet the engine head-on, according to government agents. The obstacle was placed at a curve where the engineer could not see it until the locomotive was almost upon it.

FIRE DESTROYS WAVERLY ELEVATOR

Flames Discovered at 1:30 o'Clock This Morning

Large Elevator and Entire Contents Destroyed—Origin of Fire Unknown—Strangers Pass Through Town Shortly Before Conflagration is Discovered by Night Watchman—Loss Estimated at \$20,000.

Waverly, Nov. 9.—Fire that is suspected of being of incendiary origin, totally destroyed the elevator of W. R. Turnbull at Waverly early this (Friday) morning. The fire was discovered at 1:30 o'clock by E. M. Butcher, the night policeman. Within half an hour afterward the roof of the structure fell in. Just before Mr. Butcher discovered the fire two automobiles passed thru the east part of the city headed south and circled around by the residence of Mr. Turnbull, the owner of the elevator, and then went to the public square and turned west from the northwest corner. One of the machines was a Ford car and contained two persons.

These cars passed Mr. Butcher on the square and the parties in the Ford spoke but Butcher did not know who they were. Mr. Butcher said that the cars were about one hundred yards apart.

The Turnbull elevator was one of the largest in the county and was erected a number of years ago. So far as is known there was not a great quantity of grain stored in it. It was impossible to ascertain from Mr. Turnbull this morning an estimate of his loss or the amount of insurance carried. It is probable, however, that it will exceed \$20,000.

When Night Watchman Butcher first noticed blaze it was breaking from the top of the building. He was some distance from the fire bell and discharged his revolver to give the alarm. This gave rise later to the report that he had shot at parties seen leaving the elevator.

Waverly has no water system and only a hand pump that is used to pump from wells. It was only by hard work that several residences in the vicinity were saved.

ROUNDUP OF PRO-GERMAN SLACKERS

Billings, Mont. Nov. 8.—In a roundup of alleged pro-Germans and liberty loan slackers here tonight a delegation of 650 citizens who made no effort to conceal their identity forced Curtis Oeime a local architect to resign as a member of the state board of architectural examiners, compelled Alderman Herman Schwan to give up his seat as a member of the city council and Edward J. Kortborn, a local butcher, to kiss the American flag and public declare his allegiance to the United States. There was no violence.

Citizens of German birth who gave evidence of their loyalty by supporting the government were given an ovation by the demonstration.

REFUSED TO RECOGNIZE MILITARY COMMITTEE

Petrograd, Nov. 8.—Prior to the attack on the winter palace the workmen and soldiers' leaders in the name of the Bolsheviks of Petrograd sent the provisional government an ultimatum demanding their surrender and allowing twenty minutes grace. The government replied indirectly, refusing to recognize the military committee.

QUICK ACTION DISPELS RACE RIOT DANGER

Negro Soldiers Excited Over Reported Lynching of Comrade

Negro Chauffeur Arrested for Brushing Against White Women on Side-walk—Many Wild Rumors in Circulation—Negro Battalion in Training at Montgomery, Ala.

Montgomery, Ala., Nov. 8.—Quick work by the military police early tonight coupled with determination of Major John C. Fulton, commander of the Tenth Training Battalion (negroes) prevented probably serious trouble when some of negro soldiers grew excited over a report that one of their comrades had been captured by a mob. For a time it appeared there was danger of a race riot, but the military police took the situation in hand and at midnight everything was quiet with most of the soldiers in quarters and a cordon of sentries out with orders to arrest and hold all stragglers.

The trouble started when Jim Long, a negro chauffeur, was arrested after brushing against a white woman on the sidewalk. Long was taken to the police station and released on bond, but the negro soldiers heard that "a soldier is being taken out to be lynched," and started out to rescue their comrade. As the soldiers started thru the streets they were joined by several hundred others with a large number of white persons.

Military police went to the center of the disturbance and sent about seventy of the soldiers to headquarters for interrogation. They were later sent to camp under guard. Colonel Stansbury of the 112th military police ordered all soldiers to their quarters and called extra military police into service to keep everything moving smoothly. All roads were patrolled by the policemen and all automobiles stopped and the numbers taken.

MANUFACTURERS AND COMMISSION AGREE

Paper Makers Reach Compromise With Federal Trade Body

Washington, Nov. 8.—Book paper manufacturers today made an agreement with the federal trade commission by which alleged unfair trade practices will be stopped and no further action will be taken on the commission's complaint that the manufacturers conspired to enhance prices.

Manufacturers doing annual business of \$80,000,000 are affected by the agreement.

The commission's order was one of the most sweeping ever issued by that body to protect the public against price raising.

Dissolution of the bureau of statistics maintained by the book paper manufacturers, and charged with having been the medium thru which they acted first was ordered, and then each and all respondents to the complaint were directed to desist forever from continuing membership in the bureau, from re-organizing it or from becoming members of any similar organization. The manufacturers also were ordered to cease from engaging in any concerted movement to enhance the prices of book print paper, to maintain such enhanced prices, to bring about substantial uniformity of such prices, or to effect or maintain such enhancement or uniformity thru telephone communication, correspondence, personal meetings, "or in any other manner whatsoever."

Charles F. Moore, of New York, secretary of the bureau of statistics, individually was named in the order and ordered to desist from all the practices complained of.

PLAN CONVENTION OF NATIONAL PARTY

New York, Nov. 8.—Announcement of a national convention early in 1918 at which plans will be made for placing candidates in the field for the congressional elections later in the year was made in this city today by the national party which was formed in Chicago in October thru a coalition of prominent progressives, prohibitionists, single taxers, Socialists who withdrew from the Socialist party and independents. The time and place of the convention are yet to be chosen.

John Spargo of Vermont, director of propaganda and education of the party said an effective organization is built up and that the party's campaign will be made on "complete and unswerving loyalty to the allies' cause."

Other planks in the national platform Mr. Spargo said, will be prohibition for the period of the war, equal suffrage by federal amendment, maximum free speech consistent with the national safety and abolition of profiteering.

TEMPORARY SETTLEMENT

Santa Anna de Livramento, Brazil, Nov. 8.—The municipal authorities believe that the settlement of the strike which has been in progress here for some time is only temporary and that the Germans are forming a new walkout. The strike just settled was the third to come in quick succession and like the others it greatly interfered with the shipment of foodstuffs and other supplies to the entente allies.

Officials say they believe these strikes are part of a revolutionary movement.

CASUALTY LIST

Ottawa, Ont., Nov. 8.—The following American names appear in tonight's casualty list: Wounded—J. L. Lelehan, Belleville, Ill. Wounded and gassed—J. Baba, Chicago, Ill.

War News Summarized

Petrograd again is in turmoil. The provisional government has been thrown out of power by the Extreme Radicals headed by Nikolai Lenin; Premier Kerensky has fled the capital; several of his ministers have been placed under arrest and the winter palace, the seat of the government, has been bombarded by the guns of the cruiser Aurora and of the St. Peter and St. Paul fortresses, and forced to capitulate to the revolutionists.

A congress of the workmen's and soldiers' delegates of all Russia has convened in Petrograd and will discuss the questions of organization of power, peace and war and the formation of a constituent assembly. A delegation has been named by the congress to confer with other revolutionary and Democratic organizations with a view to initiating peace negotiations for the purpose of taking steps to stop the bloodshed.

As yet the details of the disorders which followed the assumption of power by the radical element are meagre, but it is known that from its moorings in the Neva, the cruiser Aurora fired shrapnel and solid shell against the winter palace for four hours with the guns of the great fortresses and machine guns stationed in front of the palace keeping in safety in Moscow while others assert that he has gone to the front in an endeavor to obtain the backing of the troops to forestall a debacle of his government. Cossack regiments are declared already to have announced their readiness wholeheartedly to support the government on condition that no compromise with the revolutionists is made but on the other hand, it is asserted that delegates from the Black and Baltic sea fleets have declared themselves in favor of the radicals.

There has been no cessation in the retreat of the Italians across the Venetian plains toward the new line of defense on which it is supposed to stand and face the invading Germans and Austro-Hungarians. The larger units of the Italians are falling back without molestation, according to the Rome official communication but considerable fighting has taken place in the hills of Vittorio and at other points in the north.

The Berlin war office says that on the middle Tagliamento river Italian troops who were still standing out against the invaders were captured. A general and 17,999 additional Italian troops are reported to have been captured, bringing the total prisoners since the retreat from the Isonzo began to more than 250,000, according to Berlin. It is asserted also that in excess of 2,300 guns have fallen into the hands of the Teutonic allies.

Along the line in France and Belgium only artillery duels and raiding operations by French and British troops are taking place. Additional gains have been gained by the British troops against the Turks in Palestine and along the Tigris river.

EARN'S APPOINTMENT

Springfield, Ill., Nov. 8.—James Donahoe was today commissioned by Governor Lowden as assistant judge of the municipal court of Cook county. His appointment came after a fight of three years against Aaron Heepe, who has occupied the bench concerning election returns.

GOVERNMENT DECIDES ON CENSORSHIP ACTION

Many Persons in U. S. Will Be Denied Cable Communication

Plan Includes Further Steps to Prevent Explosions, Fires and Other Acts of Sabotage—May Restrict Movements of Alien Enemies.

Washington, Nov. 8.—The government is about to deny cable communication with neutral countries to a number of persons in the United States including some American citizens on the suspicion that they have furnished information to the enemy on military, naval and commercial operations. Telegraph and cable companies, it was stated today will be given lists of individuals who have been under surveillance, with instructions to refuse transmission of their messages.

Some of the men under the ban are said to have been engaged by neutral organizations or corporations in the European neutral countries or in Mexico, South and Central America, to gather information ostensibly for commercial purposes entirely, but in reality for transmission to Germany.

Also these agents in some instances are unwillingly acting in the enemy interests the avenues of communication will be closed to them by the government censorship board which is exercising control over cable, telegraph and mail messages entering or leaving the United States.

The censorship action is but one phase of the program for tightening of control over enemy activity in this country, now being formulated for early announcement. The plans include further steps to prevent explosions, fire and other acts of sabotage. More drastic measures also will be taken soon, it is said to restrict the movement in this country of the thousands of alien enemies who now are permitted to go almost anywhere except within zones about camps and fortifications.

ABANDON HOPE FOR MISSING MEN

Search for Survivors of Alcedo is Given Up.

Washington, Nov. 8.—All hope for the safety of Lieutenant John T. Melvin and the twenty enlisted men, reported missing after the torpedoing of the American patrol ship Alcedo, has been abandoned.

Vice-Admiral Sims cabled the navy department today that the search for survivors of the Alcedo had been given up, and that it was believed most of the missing men had been killed outright by the explosion of the torpedo.

Daniels' Statement

Secretary Daniels authorized this statement: "The navy department has received a report from Vice-Admiral Sims stating that no trace had been found of the one officer and 20 men reported missing after the sinking of the American patrol vessel Alcedo. Several vessels which were searching for possible survivors have given up the search. It is believed that most of the missing men were killed by the explosion of the torpedo."

"The Alcedo, a converted yacht, was torpedoed and sunk by a submarine early Monday morning, being the first American war ship to go down since the war began. No details have been made public."

RETAIL COAL PRICES MAY BE REDUCED

WASHINGTON, Nov. 8.—Possible reduction of retail coal prices was indicated by the fuel administration today in instructions to State Fuel administrators empowering them to change methods fixing retail margins. Investigation has disclosed that the margin allowed which is the same as that taken in 1915, in many instances is too high. The instructions to fuel administrators say that in certain communities retail dealers are charging excessive prices for coal although basing their prices in strict accordance with regulations, as the profits they made in 1915, which are the basis for present prices are unreasonable under the present circumstances. When local committees find such conditions they are instructed by careful investigation to find a fair and reasonable profit for the retailer and send their recommendations to the state administrator.

The state administrator will then confirm such prices in that town or city, subject to appeal to the United States fuel administrator, according to the instructions.

CAPTAIN AT HOUSTON ACCIDENTALLY KILLED

HOUSTON, Texas, Nov. 8.—Captain O. W. Hoegstedt of LaGrange, Ill., a member of Company D, one hundred and thirty second infantry was accidentally killed last night at Sour Lake where he was with troops guarding oil fields during the oil workers' strike.

Private Leman of Co. D was handing a shotgun to Captain Hughes of the ranger civil guard. It was accidentally discharged, the load striking Hoegstedt in the head.

LARGE SHIPMENT OF JUTE YARN RECEIVED

An Atlantic Port, Nov. 8.—A shipment of jute yarn, said to be the most valuable ever received in this country, was brought by a steamer which arrived yesterday. The consignment totaled 39,000 bales, valued at about two million dollars. The freighter also brought 2,000 tons of Manganese ore, destined for munitions factories.

FRENCH MAKE TWO SURPRISE ATTACKS

Paris, Nov. 8.—"During the night we made two surprise attacks one on the enemy trenches east of Rheims, the other in the oevre east of Nouilly, and brought back prisoners," says today's official statement.

In upper Alsace the attack we made yesterday on the German positions at Schoenholz, it is now learned, caused the enemy to suffer heavy losses. The number of prisoners captured by us has reached 121, of whom two are officers. Important materials which we have thus far not been able to enumerate, fell into our hands."

EIGHTY KILLED IN MEXICAN MASSACRE

Sixty Unidentified Victims Buried Beside Railroad Track

Bandits Attacked Passenger Train Fifty Miles South of Chihuahua—Men Were Beaten to Death for Their Shoes—Innocent Passengers Slaughtered.

Juarez, Mex., Nov. 8.—Funeral services for victims of the Armeda massacres Sunday has been in progress in Chihuahua City all week according to messengers who arrived here tonight. Sixty unidentified victims of the bandit attack made on the passenger train fifty miles south of Chihuahua City were buried beside the railroad track. The identified dead were brought to the state capital for burial. The total dead and wounded in the attack is officially placed at 136, of whom 80 were killed. The wounded include four women.

Passengers who were on the train declared here tonight that men were beaten to death for their shoes, innocent passengers were slaughtered without cause and several Carranza officials were forced to disrobe before being shot to prevent making holes thru the clothing.

After being stripped of clothing and shoes all passengers were forced to march two kilometers thru cactus and over rocks before being liberated. A priest was spared to administer the last rites to the dying. Rumors of an attack on yesterday's train from Chihuahua City were denied today.

HOMESICK SOLDIER FOUND IN THEATRE

CHICAGO, Nov. 8.—"Why, you poor little homesick baby," said Policeman Colgrove, and Policeman Zink nodded assent.

Between them sat a boy down whose cheeks as yet innocent of a razor, the tears rolled unchecked. He was found asleep in an all-night movie theatre and taken to the Central Police Station this morning. The shirt of the soldier's khaki attracted the attention of the bluecoats and hence the arrest.

"I just got so homesick I couldn't stand it," explained the youngster. The desk sergeant produced a book and recorded the admitted facts that the prisoner's name was Edward A. Maish, son of a farmer of Marion, Ia.; that he was a private in Company D, Third Iowa Infantry, stationed at Hemstead, Long Island, that he was seventeen years of age, and that he had deserted.

"I was beating it back home," said the youngster. "My mother wrote letters—wrote letters—and he broke down again."

The desk sergeant, who had been listening shook his head, and added to his records the word "deserter." Policeman Zink went to his locker, drew forth a package wrapped in a newspaper and drew therefrom two home made cookies and an apple.

"My kids can eat a barrel of 'em," he said as he handed the food to the prisoner. Meanwhile the lieutenant in charge was calling up the federal authorities.

"Got a kid deserter over here. Send a man," he said. Also a telegram was despatched to Marion, Ia.

NEGROES TESTIFY BEFORE COMMITTEE

East St. Louis, Ill., Nov. 8.—Four negroes testified before the congressional committee investigating the East St. Louis race riots today that last Monday a labor agent in Jackson, Tenn., told them they could get two dollars a day and board if they worked in East St. Louis.

This was the first direct testimony before the committee as to the work of labor agents in inducing negroes from the south to come to East St. Louis.

The negroes said they and seven others accompanied the labor agent to East St. Louis for that he gave them free transportation. They said that after they arrived here they were given jobs at \$1.40 a day, and were told they would have to buy two blankets at \$2.25 each.

EXPECT INCREASE IN INSURANCE RATES

Chicago, Nov. 8.—An increase in insurance rates may be expected, according to delegates attending the Institute of Actuaries here today. It was said that the advance would not be based on deaths of soldiers, but on the increase among the home population due to conditions brought about by the war.

WHEELER RETURNS FROM TOUR

Chicago, Nov. 8.—Food Administrator Wheeler returned today from his tour of the state in the interests of food conservation. He said that he found some apathy in so-called German sections. He did not designate the particular sections, but said that he would later if such a course proved necessary to stir them to patriotic action.

THOUSANDS OF TONS OF COAL AVAILABLE

Fuel Contracted At High Prices Put On Market

Administration Decides to Allow Dealers to Take Small Margin of Profit on Coal Bought Before Government Prices Were Fixed.

Washington, Nov. 8.—Thousands of tons of coal held by jobbers and wholesalers was made available for emergency distribution today when the Fuel Administration decided to allow dealers to take a small margin of profit on coal they had contracted for at high prices before the government prices were fixed. Under the previous orders jobbers have been permitted to sell only at small margin above the government price at the mine regardless of the figures named in their contracts. Because in many instances this price was less than the coal cost them the jobbers have held their coal.

Today's ruling provides that the jobbers may sell at a margin of fifteen per cent above the contract to purchasers to be designated by state fuel administrators. The coal administrators will place the coal in communities most in need of it and expect no difficulty in disposing of the supply even at the higher prices.

Measures to increase coal production were taken up at a conference today between officials of the food administration, directors of the national coal association and representatives of the railroad war board the priorities committee and the interstate commerce commission. Consideration was given to a proposal that coal shipments to given preference in transportation over all other commodities except food and war supplies.

This step was urged particularly by the coal operators, who claim that car shortage is forcing mines to stand idle in many parts of the country.

STRIKES IN EAST CONTINUE TO SPREAD

Boston, Nov. 8.—Strikes on construction works at plants in this city and vicinity where government contracts are being filled continue to spread today. Union leaders claim tonight that more than 1,300 mechanics now are involved and that more may be expected to be called out without a few days.

Among the plants affected are the navy yard, the Watertown Arsenal, the naval hospital in Chelsea and the federal airplane stores in this city. According to John C. MacDonald, secretary of the building trades council of Greater Boston and Quincy the strikes have been called as a protest against open shop conditions and there is a spate with the government directly but with contractors engaged on government work.

DEFER APPOINTMENT OF DE SAULLES' GUARDIAN

NEW YORK, Nov. 8.—Appointment of a guardian for Jack DeSaules, the young son of John Long-DeSaules for whose murder the boy's mother, Mrs. Bianca DeSaules is awaiting trial at Mineola, N. Y., was deferred by Surrogate Fowler here today until he had opportunity to inquire into the personal fitness of the father of the slain man, whom the application seeks to make guardian. The child is now with Mrs. Louisa V. Hecksher, a sister of his father. A controversy over the custody of the boy after his mother had been granted a divorce led to the shooting of DeSaules.

SOLDIERS DRESS UP FOR GOV. LOWDEN

HOUSTON, Texas, Nov. 8.—Camp Logan put on its best clothes today and entertained Governor and Mrs. Lowden of Illinois on an all day visit. The governor's son, Pullman Lowden, a sergeant in the quartermaster's department, was assigned as his father's orderly. All members of the governor's party visited the camp. Fred E. Sterling, of Rockford, state Republican chairman, spent most of the time with his son who, like Lowden, is in the quartermaster's department. Speaker Shanahan's friends were scattered from one end of the camp to the other, and he spent a busy day, as did Adjutant-General Dickson, personally known to nearly every former militiaman in camp.

HAM AND BACON PRICES ARE SLASHED

Chicago, Nov. 8.—Prices of ham and bacon to the consumer were cut 5 to 10 cents by the Illinois food administrator today. The government's complete control of the packing industry lends importance to the announcement. While for the moment the cut applies only to Chicago and suburbs, prices set here eventually will serve as the standard for the whole country.

TUBERCULOSIS CONFERENCE.

Plans to guard the big military
camps in the south against the
"white plague" will form the leading
topic of discussion at the annual
conference of the National Association
for the Study and Prevention of Tu-
berculosis.

Cass county has by an overwhelm-
ing vote defeated the tuberculosis

ship organization scheme. Cass is
very progressive in the practical
matter of good roads, having many
more miles of oiled or hard roads
than Morgan can boast of.

TEACHING THE TURKS.

The Kaiser, visiting the Sultan at
Constantinople, tells the Turks that
they will be privileged after the war
to join the Germans in "kultur." The
Kaiser is about a generation late.
The Turks, as a matter of fact, beat
the Germans to it. The Bulgarian

atrocities of the late 70's were the
forerunner of the German atrocities
of the Twentieth Century.

NO "HUSH" FOR TEDDY.
The "Hush, darling," policy does
not appeal to Col. Roosevelt. He
finds no impropriety, even at the
time when our men are first "going
over the top," in France, in stating
that the time from August, 1914,
to April, 1917, was not made use of
in preparing the United States for in-
evitable war, or that we have not
made adequate progress in prepared-
ness since the war was declared. There
is no fact that we are now in war
does not seem to the Colonel suffi-
cient reason for concealing the other
fact that we wasted valuable time
before war came.

TRUTH IN OLD RHYME.

Food conservation week produced
the usual supply of bad verse to bo-
ster up the cause. None of the
rhymes covered the problem or con-
tained a larger truth or a more cog-
ent appeal than the old English nur-
sery jingle:
Dearly beloved brethren, is it not
a sin
When you peel potatoes to throw
away the skin?
The skin feeds the pigs and the pigs
feed you.
Dearly beloved brethren, is not that
true?

SUGAR AGAIN BOOSTED.

The United States Food Adminis-
tration announces that it has deter-
mined that a fair profit will be earned
by all producers of direct-con-
sumption sugar in Louisiana if their
product is sold at not less than \$7.25,
less 2 per cent, New Orleans basis.
This does not apply to refined sugars
or plantation granulated sugars, the
prices for which will be controlled
under the contracts between the
Food Administrator and the refiners.

CAPTURED THE COAL.

Directed by the president of the
town board of Golden, citizens of
that community exemplified the spirit
of the Boston Tea Party in 1775,
when they confiscated and sold to the
public two cars of coal enroute south,
when it was left at the railroad sid-
ing there. The men didn't wear the
guise of Indians either. Golden has
been without a shipment of coal in
four weeks, and more than fifty
families were without fuel when the
two earloads with the fuel were cut
out from a long train and left there
for what purpose is not known. And
like their forefathers they acted in
an emergency.

ORIGIN OF THE SALUTE.

There has been much speculation
as to the origin of the military sal-
ute of the present day and the Lon-
don Chronicle comes to our relief
with this: "The military salute,
which some of our soldiers and sail-
ors are occasionally accused of omit-
ting, had a curious origin. It tradi-
tion is to be believed. It is said that
it originated in the days of the
tournament, at which a queen of
beauty was chosen to preside. The
knights and their esquires and all

who took part in the tourney, on pre-
sented themselves before the queen,
lifted each one a hand level with the
brow, as though dazzled by the light
of her presence." That is indeed a
far cry from the "dazzling beauty"
to the homely faces of some of our
fighting men.

DESTROYING FOOD.

(Peoria Star.) If, as now appears
to be the case, some of the dealers in
Chicago have been guilty of holding
food for high prices, until it has
been unfit for consumption, no pun-
ishment can be too severe for them.
That such a condition should have
been permitted to exist, where the
business men and citizens generally
are making every effort to assist the
government in its food conservation
problem is a shame and a disgrace.
We trust that government agents
will take prompt steps to see that
these villains are promptly brought
to book. The citizens of the United
States are gladly lending every aid
to the government. They are sub-
mitting willingly to wheatless days
and countless days in an earnest ef-
fort to help the government and our
allies across the sea, and thus bring
the war to a speedy and successful
conclusion. In view of all the cir-
cumstances in this case, and the evi-
dence thus far brought to light, it
is plainly a case for the severest pun-
ishment.

WHAT MAN CAN DO.

The experience of John Cloud of
St. Louis, who represents the deaf of
this country in embassies abroad, in
France shows what a man can do
when he is determined and devoted
to a cause. Cloud had not the wealth
of some of the ambulance volunteers
and was at first advised that it might
not be best for him to venture
abroad for such service, because he
might not be able to supply his own
needs. He replied that he always
had "pulled through."

The manner in which this young
man is "pulling through" is told in a
letter. "You will be amused to hear
that I am taking in washing. I
got hard up, so I invested my last
franc in a tub and brush. Then I
hung up a shingle, 'Washing.' Later
I added 'Puttees and shoes clean-
ed and shined, buttons and belts
shined.' The receipts thus far have
exceeded my expectations. I guess
I shan't have to go without anything
I really need."

The deaf of this country are pro-
viding an ambulance, to be in
charge of Cloud. Until it is ready
is attached to a section presumably
on the Verdun front.

Cloud is the son of Rev. James H.
Cloud, rector of St. Thomas' Mission
for the Deaf.

SPECULATION JAILABLE.

A jobber tells us that the food ad-
ministration has taken speculation
out of canned goods. This is done by
basing the selling price on what the
goods cost the owner, not on what he
would have to pay for other goods in
the open market. The proposed regu-
lation can be enforced in the case of
a jobber whose yearly business is
big enough (over \$100,000) to make
him carry a government license. He
reports what goods cost him and the
price at which he sells. He is al-
lowed a fair profit, but he must drop
all thought of speculation. If he has
to pay more for the next batch of
goods he can then advance the price
at which he sells. Of course this line
of control will not apply to the
jobber only. There is the one from
whom he gets the goods, the canner
and the packer. The distributor is
also licensed, which means he must
make reports right along. The food
administration will have a line on
him, and if he tries to charge too
much he will be informed that specu-
lation is a jail offense.

PEACE AND THE RUSSIANS.

News of another "bloodless revolu-
tion" in Russia, another change
in the personnel of governing forces,
will be read with the most gloomy
forebodings. We had been assured
by officials that the Russians could
be relied upon to do their part after
a little time, but events have dis-
proved their theories. The Russians
are in the condition of a lawless mob,
with no settled government, or pol-
icy of bringing order out of the exist-
ing chaos. The Maximalists are now
said to be in the seat of power for
the day and have issued a procla-
mation saying the new government
will propose immediate peace (at
any price) with Germany. The re-
sult of this proposal would be that a
very large number of German troops
would be released from that field and
thrown against the allies, using Rus-
sia as a store house for food sup-
plies and munitions. The news, if
confirmed, means that the United
States is entering the war at a time,
when the outlook is at its worst
for the allies, and taken together
with the "systematic and masterly"
retreat on the Italian front, may
mean prolongation of hostilities for
years to come and demand U. S.
troops and fighting men even more
than the money we have been ad-
vancing the different governments
of the alliance. The money advanced
Russia is probably a part of the
spoils captured by the present mob.

CHICAGO SENDS
OUT S. O. S. CALL.

Chicago is again displaying her
selfishness. Since the government
stopped the manufacture of liquor
for beverage purposes several hun-
dred saloons have closed their doors
in Chicago. Immediately Chicago
cries for help and wants the legisla-
ture to pass a law to give them an in-
creased rate of taxation to make up
the deficiency.
Yet only a few months ago repre-
sentatives from Chicago stood on the
floor of the legislative halls and
fought against the law asked by
down state citizens to increase tax-
ation in order that enough revenue
might be secured to operate munici-
palities on a cash basis.
This same condition was true
when the law to create a state utility
commission came up a few years ago.
In the first days of the bill Chicago
was complacent in the belief that
Chicago would be exempted and giv-

en control of her public utilities.
However, when other cities began to
ask for exemption the makers
of the bill tried to trim it to fit cities
according to population.

This caused so much objection
that it was finally decided to make
it apply to all cities. Then Chicago
got busy and sent out the S. O. S.
call to the mayor and city councils
to come to Springfield and help them
kill the utility bill. Carter Harrison,
then mayor of Chicago, took the
entire city council to Springfield but
the thing had gone too far and Chi-
cago got her dose along with the
rest of us. This did not seem to make
down state cities so very mad when
they remembered the things that
Chicago had put over on them in the
past in order to get some particu-
lar law for herself. In this instance
Chicago will get but little sympathy
and less help.

Rippling Rhymes
By WALT MASON

Ambition.
When I was young I had no
doubt that I was destined to be
great; I'd distance every other
scout, and be the land's chief magis-
trate. I knew I'd leave a deathless
name when I pulled out for t'other
shore, and in the world's great hall
of fame my chum'd hang above
the door. I thought not ways and
means, of how I should put up the
grass; I only knew that kings and
queens would be the people in my
class. I jeered at obstacles, forsooth!
My upward way I'd bravely keep;
for in the golden days of youth
the toil of Hercules looks cheap. I
sat beneath my vine and tree and
backward look across the years
and all my bustled dreams I see,
and bellow like a brace of steers. I never
reached a dazzling height—what boot
the wherefores and the whys? And
every time I made a fight, the other
fellow got the prize. The prizes of
this world increase, but none is
added to my store; I've run for
justice of the peace three times, and
goose eggs were my score. I sit be-
neath my tree and vine, and see the
bought youths go by, with golden
visions just like mine, with dreams
of heights that reach the sky. From
me they hear no caterwaul, no
dreary wail of wasted beans; for if
boys didn't dream at all, they'd be
old men while in their teens.

APPRECIATIVE AUDIENCE
HEARD MR. JESSEN

Gave Second Recital in Music Hall
Thursday Evening—Program was
Well Chosen and Brilliantly Giv-
en.

The audience that greeted Mr.
Jessen for his second Jacksonville
recital, went away well pleased with
itself. From the moment of the
opening with the intimate and
contented Prelude and Fugue in F
minor, until the last note of the con-
certo, the interest of the audience in
the work of the soloist increased.

Mr. Jessen displayed great fleet-
ness of finger work and fine melody
playing. Beside the Prelude and
Fugue, perhaps his most pleasing
numbers were the Spinning Song by
Mendelssohn and Gnomensagen by
Liszt. The one novelty of the pro-
gram the Carillon by Mr. Oldberg
of Chicago, was enthusiastically receiv-
ed.

The orchestral parts of the con-
certo being given on the organ of-
fered great variety of tone coloring
and a decided relief from the usual
playing. Mr. Stearns gave able and
abundant support to the soloist thru-
out the concerto.

QUAIL SEASON OPENS SUNDAY

The quail season in Illinois will
open next Sunday, Nov. 11, and the
law provides that quail may be killed
from that date until Dec. 9. The
opening date happens to fall on Sun-
day but in all probability that fact
will not prevent a large number of
sportsmen from hunting. The weather
will not be severe last winter and so
in most parts of the state quail are
said to be more abundant than usual.
The limit for each day is 12 quail.
A great many Morgan county men
have already taken out hunting li-
censes, and the demand for quail
no doubt be especially brisk for the
remaining days of this week.

BEES USE CHURCH FOR
HIVE; GET ROBBED

Swarm of Bees Made Home in Sul-
phur Springs Church—Thieves De-
faced Church and Robbed Bees—
Trustees Offer Reward.

Many years ago a swarm of bees,
showing apparently the wisdom of
Solomon, took up its abode under the
weather boarding of Sulphur Springs
church. They built their home
around the chimney of the church
and each year went forth and laid in
their winter stores.

The members of the congregation
knew of their presence but never mo-
lested them. But there are evidently
people in the country who would rob
not only bees but the poor box in
the church if given an opportunity.
Some of this stripe discovered that
the bees had their home under the
weather boarding and Wednesday
night went to the church, tore off
the weatherboarding and took all of
the honey.

In addition to robbing the bees the
damage to the church will be consid-
erable. The trustees have offered a
reward for the arrest and conviction
of the thieves. Sulphur Springs
church is situated about ten miles
southeast of Jacksonville.

Mrs. Thomas Brown Hostess To Helping Class of Hebron.

Mrs. Thomas Brown entertained the members of the Helping Class of Hebron church at her home Thursday afternoon. All of the members of the class were present with the exception of one. One new member, Mrs. A. G. Waterfield, was taken into the class yesterday. Refreshments were served by the hostess. The following program was given during the afternoon:

Song, "Right in the Sight of God."

Lord's Prayer.

Scripture Reading—Mrs. Emma Fox.

Piano solo—Mrs. Henry Daubard.

Reading—Mrs. Thomas Fox.

Vocal duet—Mrs. Albert Hopper and Mrs. Charles Bealmer.

After the conclusion of the program the meeting adjourned to meet at the home of Mrs. Charles Bealmer Thursday, Nov. 22.

Parent-Teacher Meeting of Third Ward.

The Parent-Teachers Association of Franklin and Morton schools held their first meeting of the year at Franklin school Thursday afternoon. After a short business session the children of the fifth grade gave a group of songs which was greatly enjoyed. Miss Dewese delighted the audience with three well rendered solos after which Rev. Leslie of Centenary church, gave a masterful address on "The Finished Product," using as his text Van Dyke's famous lines:

"To think without confusion clearly To love his fellow man sincerely To act from honest motives purely To trust in God and Heaven securely."

Mrs. W. D. Roberts, as one of the vice presidents of the Mother's Congress gave a report of the convention which met recently in Chicago. Many helpful suggestions were given in this report. After adjournment a social hour was enjoyed.

Mrs. Albert Hall Entertained Gleaners.

Mrs. Albert Hall entertained the Ladies Aid society and the Gleaners society of Ebenezer church at her home northwest of the city Thursday afternoon. An interesting program was rendered. Miss Elsie Cully read the scripture lesson, Song by the Gleaners. Music, Mrs. Will Hadden. Song by the Aid. At the business meeting the ladies discussed plans for the chicken supper which will be given in the near future, but no definite date was decided upon for this much anticipated event. After the business session the hostess served refreshments. The next meeting of the aid society will be held with Mrs. Walker Henderson on Thursday, December 13th.

Entertained at Dinner In Honor of Anniversary.

Thursday was the twentieth anniversary of the marriage of Mr. and Mrs. Joseph A. Brown. In honor of the event they entertained a company of relatives at 6 o'clock dinner at the New Pacific hotel. A seven course dinner was served in a faultless manner and greatly enjoyed. After the dinner the guests went to the parlors of the hotel where the evening was pleasantly spent socially.

ERNEST STOUT ENLISTS IN QUARTERMASTER'S DEPT.

Accepted As Member of Quartermaster's Reserve Corps with Rank of Sergeant.

Ernest Stout, son of Mr. and Mrs. George W. Stout of North Church street, returned from Chicago, Thursday where he enlisted in the Quartermaster's Reserve Corps, U. S. Regular Army, as storekeeper with the rank of sergeant. Mr. Stout has been in the employ of the Myer's Brothers clothing store in this city for the past twelve years and is well qualified for the new government position which awaits him. He is thoroughly familiar with work of this character. As he is enrolled in the reserve corps it is rather uncertain as to just when he will be called for active service however, he will hold himself in readiness and be ready to leave on short notice. Sergeant Stout's ability in the branch of service he has elected to enter will no doubt put him in line for further promotion during the strenuous months to come.

SOME FARM TOPICS

Unfavorable reports as to the condition of corn continue to be received. There is no question but that the greatest corn known in many years has been raised in Morgan county this year. But it is also true that there is a vast acreage of soft corn. The same condition obtains throughout the corn belt in Illinois. Huskers find that in most fields the corn is green and sappy and not in condition to be cribbed. This is true in many corn fields where the corn was planted early. Mention has already been made of the difficulty which there will be in selecting seed corn because of this condition and farmers who make a business of selling seed corn will have a difficult time in securing any large supply.

The corn that is green and sappy is not in proper condition for husking and will not grade when delivered to the elevators. So it seems certain that many farmers who are expecting to get from \$1 to \$1.10 for their corn delivered at the elevators will have to be satisfied with a price of 75c or 80c. Instead of selling to the elevators they will of course have the option of feeding corn to cattle or hogs and by marketing their corn in this way will be able to get a price nearer the actual worth.

When it comes to feeding hogs extensively, there are many farmers who feel especially dubious this year about the cholera situation. It is known that cholera exists in an alarming extent in some counties in this locality and that there are a good many cholera cases in the county. So far cholera does not exist here to a very great extent but there is the danger of its spreading, and farmers who are not accustomed to feeding in a large way do not like to think of the possibility of putting their hogs priced corn into hogs and then losing both hogs and corn.

The fact is that farmers just now are like a great many other business men—they do not know just what to do. Labor is very difficult to secure, prices for some products are constantly changing and although prices have been pretty well stabilized as to hogs, there is the greatest uncertainty as to cattle prices. The cost of all materials used on the farm is very much greater than ever before and in many cases the farmer cannot quite make up his mind as to the safest and sanest course to follow.

ALTON OFFICIALS CONFERENCE AT ROODHOUSE

Roodhouse was the gathering point for high officials of the Chicago and Alton railroad Thursday, called together for the purpose of discussing the despatcher situation at that point. Some time ago seven despatchers were laid off at Roodhouse and sent to Bloomington, Kansas City and Chicago. It was the intention at that time to give the men more work and at the same time relieve the station at Roodhouse of much of this class of work. However at the meeting of the officials yesterday it was decided best to replace the despatchers at the Roodhouse point and they will be recalled and resume their duties there tomorrow morning.

FUNERALS

Yancy.

Funeral services were held Tuesday for Charles Yancy, in charge of Rev. C. G. Cantrell of Concord. A large company of friends and relatives were present to pay a last tribute of respect to the deceased, including a large delegation of Alton employees and members of the Order of Railway Conductors, of which he was a member. The many beautiful flowers were care for by Mrs. Edward Farmer, Mrs. Ollie Moore, Mrs. Edward Collins and Miss Nellie Goodall. Music was furnished by the Swain brothers and sisters of Sinclair, and Mrs. William Smith. Interment was made in Yatesville cemetery, the bearers being Charles Brown, Howard Hodgson, Prentice, C. A. Gibson, G. F. Harper, J. C. Paul, Bloomington, and William Bailey of Peoria, all associates of the deceased.

Death was the result of injuries received Thursday, Nov. 1, in a railway accident at Auburn. The injured man was immediately removed to St. John's hospital, Springfield, where an operation was performed in the effort to save his life. However peritonitis and other complications rendered his condition serious from the first, and death came as stated on Sunday morning. Deceased had been in the employ of the Chicago & Alton railroad for the past fifteen years, acting as brakeman for seven years and eight years ago he was promoted to the position of conductor. His record as an employee was an excellent one and he was always popular with his associates and the public generally. He is survived by his parents; three brothers, Coy of Bloomington, Clarence of Philadelphia and Carl at home; two sisters, Mrs. John Young of Liberty and Edith at home. One brother, Clark, died in infancy.

DEATHS

Smith.

The infant child of Mr. and Mrs. Arthur Smith of Alexander died at the family home Thursday morning at 12:25. Burial was made in Woodworth cemetery Thursday afternoon at 3 o'clock.

FARM LAND

Don't be alarmed because we have so many farms to sell—as soon as one is sold we have a cash buyer for another farm. Nobody is quitting the land business now; everybody is scrambling for something better than he has. Some have small, high priced grain farms and want cheaper stock farms. Some have small farms with boys growing requiring more land. Some have big farms and no help and want smaller farms. We know who they are, where they are, what they have and what they want. That is our business.

(a) Farm of 200 acres one and one-half miles from Manchester, 140 acres in cultivation, balance blue grass pasture land with some timber. This farm is exceptionally well fenced, with two full sets of improvements, consisting of two excellent houses of seven rooms each, two good horse barns, one big cattle and hay barn, stock scales, implement sheds, corn cribs, hog houses and every necessary out building, two goods orchards. Abundance of water from spring near cattle barn. This is an ideal stock and grain farm suitable for one man with tenant, or two men who want to live near each other. Price \$125 per acre.

(b) A farm of 80 acres in the neighborhood of Orleans all good farming land well tiled, with a house of five rooms, barn for eight horses, silo and other buildings. \$200.00 per acre.

(c) Twenty acres just outside city limits with first class improvements, abundance of fruit and a complete suburban home in every way, to sell or exchange for large farm.

(d) A farm of 237 acres near a good town. This is all bottom land and well drained, except 80 acres and no sand. There is an eight room house, stock barn, 8000 bushel corn crib, tenant house of five rooms and other out buildings. This farm is occupied by a tenant who has been renting it for twenty consecutive years. Price \$125 per acre, one-half cash, balance will be carried at 5%.

DENIES CHARGES THAT JUSTICES ARE "CROOKED"

Reluctance of Men to Serve on Juries Responsible for Conditions at East St. Louis According to Witness.

East St. Louis, Ill., Nov. 8.—"Barrel house" and "irrigated" juries were given as the chief cause of the charges of "crookedness" against the East St. Louis justice of the peace courts by Russell E. Townsend, justice of the peace in his testimony today before the congressional riot investigating committee. He denied the charges that the justices are "crooked."

Townsend said reluctance of business men to serve on juries was responsible for conditions. He defined

"irrigated" juries as those whose members were "irrigated" at a saloon before they took places in the jury box.

Townsend told of what he termed "the rotten conditions" in handling criminal cases. He said negroes charged with crime appeared to have no trouble in finding bondsmen. Once he fixed the bond of a negro at \$5,000, he said and she furnished it in a few minutes.

Often, he said, he held women to the grand jury charged with holdups and a few days later saw the same women on the streets. They never were prosecuted further, he said.

Charles Nagle, member of President Taft's cabinet was one of the witnesses at today's session. He told of efforts to relieve suffering of refugees after the riots. After Ad-

jutant General Dickson took charge he said he considered the situation well in hand.

Ten negroes told of having been imported to East St. Louis. Some of them said they had been brought here by D. A. Allen, track foreman of the Mobile & Ohio railroad. They said they were promised \$2 a day and when they were put to work they received only \$1.40 a day. Allen who followed the negroes on the stand denied that he had promised them \$2 a day and board. He said their pay was \$2 a day and he deducted 60 cents a day for their meals.

NOTED CLEVELAND DOCTOR MURDERED

CLEVELAND, O., Nov. 8.—Dr. Harry L. Chapin, physician, author and traveler, late this afternoon was murdered by an unidentified assailant in a room in a downtown hotel.

Dr. Chapin's skull was fractured by a blow which crushed in the entire back of his head. He died where he was felled within half an hour after the attack.

A maid found Dr. Chapin lying on the floor speechless and unable to rise. Littered over the floor were shreds of paper which when pieced together were found to be a receipt relating to an express package which was to have been delivered to Dr. Chapin on payment of \$100.

On a piece of Brown paper which police pieced together was found the name of a traveling man with headquarters in Chicago.

General orders have been sent out for the arrest of this man and police said tonight if he is arrested he will be charged with the murder.

Mrs. Chapin who was the widow of Valentine Fries, millionaire Sandusky lumberman and boat owner before she married Dr. Chapin tonight told the police her husband answered a telephone call from his room in another hotel and hurried away without telling her where he was going.

AMOUNT SUBSCRIBED IN SEVENTH DISTRICT

The total number of subscriptions in the district was 1,830,170 or more than double that of the first campaign. Of this number there were 1,393,256 whose individual subscriptions were under \$10.00.

The maximum figure set by the federal government for this district was \$700,000,000, while the minimum was \$420,000,000.

The district has 5,500 banks and a population of 13,124,555.

OHIO PROH ELECTION STILL IN DOUBT

Wets Have Lead of 588 from Official Figures Received by Secretary of State.

Cincinnati, O., Nov. 8.—At the end of the day the question whether Ohio is "wet" or a "dry" state still in doubt but from complete returns from 88 counties (67 of which had turned in official reports) the "wets" were leading by an unofficial majority of 3,543 including a gain of 1,832 wet votes in Hamilton county, which has not yet been reported officially to the secretary of state.

An announcement by Secretary of State Fulton from figures compiled in his office gave the wets a majority of only 588, including figures in all except one county and the 1,832 in the unofficial vote of Hamilton county.

The presidential women's suffrage referendum, after wandering almost unnoticed for two days in the excitement of the prohibition contest reappeared tonight. Figures from nearly every county showed its defeat by 136,419 votes.

MINIMUM REDUCED.

Washington, Nov. 8.—Secretary Baker reduced from 21 years to 20 years and nine months the minimum age for students in third officers' training camp which is to be opened in January for enlisted men. The purpose is to open the camp to men who will be twenty one at the end of their three months training.

MAXIMALIST SCONTROL RUSSIAN GOVERNMENT

(Continued from Page 1.)

be kept in the trenches winter will operate to prevent German troops from taking advantage of any temporary weakness to start an offensive.

General Congress Convened Petrograd, Nov. 8.—The general congress of workmen's and soldiers' delegates of all Russian was convened here last night with 560 delegates in attendance. The chairman declared that the time was not propitious for political shares and the order of business of the congress approved was as follows:

First, organization of power. Second, peace and war. Third, a constituent assembly.

The officers elected comprise fourteen Maximalists including Nikolai Lenin, the radical Socialist leader and M. Zinoviev, an associate of Lenin and Leon Trotsky, president of the central executive committee of the Petrograd council of workmen's and soldiers' delegates. In addition several revolutionary Socialists were appointed.

A delegation was named to initiate peace negotiations with the other revolutionary and Democratic organizations with a view to taking steps to stop bloodshed.

The Official News Agency today made public the following statement:

"The congress of the councils of workmen's and soldiers' delegates of all Russia which opened last evening issued this morning the three following proclamations:

"To all provincial councils of workmen's and soldiers' and peasants' delegates:

"All power lies in the workmen's and soldiers' delegates. Government commissaries are relieved of their functions. Presidents of the workmen's and soldiers' delegates are to communicate direct with the revolutionary government. All members of agricultural committees who have been arrested are to be set at liberty immediately and the commissaries who arrested them in turn to be arrested." The second proclamation reads as follows:

"The death penalty re-established at the front by Premier Kerensky is abolished and complete freedom for political propaganda has been established at the front. All revolutionary soldiers and officers who have been arrested for complicity in so-called political crimes are to be set at liberty."

"The third proclamation says: 'Former Ministers Konovaloff, Kiskin, Terestchenko, Malyantovich, Nikitin and others have been arrested by the revolutionary committee.'

Nikolai Levine was introduced by Trotsky as 'old, old comrade whom we welcome back.' Levine said: 'Now we have a revolution. The peasants and workmen control the government. This is only a preliminary step toward a similar revolution everywhere'.

Memphis, Tenn., Nov. 8.—In an address here tonight, Boris A. Bakmeteff, the Russian ambassador declared that if Russia is to achieve her political freedom the Maximalists who revolted against the Kerensky provisional government at Petrograd must be overthrown. Immediate peace, such as the Maximalists propose, he said, could result only in Russian oppression.

While not attempting to belittle the gravity of the situation in the Russian capital, Ambassador Bakmeteff said the Maximalist revolt was a revolt of a few against the many.

"The majority of the Russians who followed Kerensky since the Romanoffs were overthrown last March," the ambassador said, "are heart and soul with the Kerensky government. They fully understand that the freedom of Russia is assured only thru an allied victory against Prussian autocracy. They will fight to the end."

Soon after his arrival here from Washington, Ambassador Bakmeteff was informed by The Associated Press of the overthrow of the Kerensky government. His reply was that "the interest and the spirit of Russia as a whole can in no way be judged by the news from Petrograd," and he added that the spirit prevailing in the capital city is not representative of the Russian spirit as a whole.

Ambassador Bakmeteff, who has been on a tour of the south left tonight for Washington without having received any official advice from Petrograd regarding the new revolution.

Cabinet Members Arrested London, Nov. 8.—The semi-official news agency gives the names of the cabinet ministers in the Kerensky government arrested as follows:

A. I. Konovaloff, minister of trade and industry.

M. Kishkin, minister of public welfare.

M. I. Terestchenko, minister of foreign affairs.

M. Malyanovitch, minister of justice.

M. Nikitin, minister of the interior.

No News in London

London Nov. 8.—The Russian embassy in London was still without official news this evening from Petrograd. The Russian charge d'affaires declared that meanwhile the world must regard with a certain amount of reserve the news which was evidently coming from a controlled source. It should be borne in mind, he said, that the Petrograd garrison by no means represents the whole Russian army.

Personnel of Congress

Petrograd, Nov. 8.—Of the 560 members of the Workmen's and Soldiers' Congress: 250 are Bolsheviks, 150 Socialists, revolutionists, 60 Minimalists and 14 of the Minimalist-international group, six of the Nationalist Socialist group, 3 non-party Socialists, the others being independent.

Object Given

Petrograd, Wednesday, Nov. 7.—Vice-president Cameneff of the Workmen's and Soldiers' delegates told The Associated Press today that the object of taking possession of the posts and telegraphs was to thwart any effort the government might make to call troops to the capital.

The Rushka Volia and the Bourse Gazette have been commandeered by the Workmen's and Soldiers' delegates.

MORTUARY

Clemons.

John Clemons a resident of Tallula died at Passavant hospital Thursday night. Mr. Clemons was brought to the hospital yesterday and submitted to an operation. He was about 50 years of age. The body was removed to Reynolds undertaking establishment and prepared for burial and will be taken to Tallula for interment.

DECLARES GERMANY IS STRONGER THAN EVER

New York, Nov. 8.—"Germany is stronger than ever," Sir Berkeley Moynihan, senior consulting surgeon of the British army tonight told two thousands doctors at a dinner in his honor by the New York State committee of the National Council of Defense.

"She can put in the field from 1,000,000 to 1,500,000 fresh men every year," said Sir Berkeley. "She is ruthless and implacable and efficiently organized. Germany will not be conquered from within, she must be conquered from without, by you and us."

"America must prepare for a war long and arduous. I am asked how long this war will last. I will say for America that the war for her will have just begun when every man of military age will have offered his life to his country, when your wealth, your souls and your honor have been offered, when you have mourned your honored dead by the hundreds of thousands."

WOMAN DIES FROM GUNSHOT WOUNDS.

Dallas, Texas, Nov. 8.—Miss Myrtle Cunningham, formerly of Indiana, Pa., who was shot by Mrs. Katherine Travers on a downtown street here Oct. 31, died in a local hospital late tonight. Phil E. Tucker, a broker was shot and instantly killed at the same time.

Mrs. Travers being held pending grand jury action.

Miss Cunningham died without being able to state the cause of the shooting. Mrs. Travers asserts that Tucker had promised to marry her and had spent \$2,000 of her money before she learned he intended to marry Miss Cunningham.

CHAMBERLAIN BODY REMOVED FROM GRAVE

Richmond, Va., Nov. 8.—The dismembered body of Judge A. P. Chamberlain, formerly of Iowa, whose murder his brother Dd. Asa W. Chamberlain, is accused of was removed from the cemetery at Goehland, Va., today and brought here. Surgical instruments said to belong to Chamberlain were also brought.

The son of Judge Chamberlain said his father's strong box had been found empty. He had previously asserted that when his father came to Goehland several years ago from Iowa he brought \$50,000 in valuable jewelry. No trace of this has been found.

SKILLED WORKERS BEING MOBILIZED.

Washington, Nov. 8.—An army of skilled workers not more than 40 years old, white and physically fit, from approximately 47 different trades is being mobilized by the aviation section of the signal corps for service in France in connection with great air drive to be made by American fliers.

The men will be employed as close to the fighting lines as air-dromes can be built and the great part of their work will consist in keeping every work battle plane ready for safe and instantaneous service tuning engines for duty four and five miles in the air and seeing that each plane and its parts are mechanically perfect.

Lemons Beautify!
Make Quarter Pint of Lotion, Cheap

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to bleach the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with other ingredients. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.—Adv.

AN OPERATION AVERTED

Philadelphia, Pa.—"One year ago I was very sick and I suffered with pains in my side and back until I nearly went crazy. I went to different doctors and they all said I had female trouble and would not get any relief until I would be operated on. I had suffered for four years before this time, but I kept getting worse the more medicine I took. Every month since I was a young girl I had suffered with cramps in my sides at periods and was never regular. I saw your advertisement in the newspaper and the picture of a woman who had been saved from an operation and this picture was impressed on my mind. The doctor had given me only two more days to make up my mind so I sent my husband to the drug store at once for a bottle of Lydia E. Pinkham's Vegetable Compound, and believe me, I soon noticed a change and when I had finished the third bottle I was cured and never felt better. I grant you the privilege to publish my letter and am only too glad to let other women know of my cure."—Mrs. THOS. McGONIGAL, 3432 Hartville Street, Phila., Pa.

HOG INCREASE IS NECESSARY

Sows Must Be Bred at This Time in Large Numbers in Order to Insure Adequate Meat Supply.

Washington, Nov. 8.—To win this war we need more meat. To get an increased meat supply quickly hog breeding must be increased materially throughout the country, and in certain States an increase of from 25 to 50 per cent in the number of hogs is recommended by the United States Department of Agriculture.

The situation is of great importance. We must have plenty of meat for our armies and the allies, in the field, and sufficient meat for our civilian population and the civilian population of the allies at home.

To have this meat, breeding animals must reproduce themselves so the offspring will be available for slaughter in the future.

Hogs can be increased quicker than any other kind of live stock. Therefore a larger number of sows must be bred now, than in recent years.

Increases Recommended By States
In addition to the fact that there is an imperative demand for more meat as a war measure, it should be taken into consideration that we now have an abundance of feed crops—corn, oats, and barley—with which to produce this necessary increase in the number of hogs. The demand for meat is certain and it will be profitable to the farmer to market some of this heavy grain supply on the hoof.

The increases in the number of hogs for various states, as recommended by the department, is as follows: Missouri, 50 per cent; Alabama, 30; Iowa, 25; Kansas, 25; Indiana, 20; Illinois, 20; Mississippi, 20; South Carolina, 15; Ohio, 15; Kentucky, 15; Tennessee, 15; Maryland, 10; North Carolina, 10; Michigan, 10; Nebraska, 10; West Virginia, 5; and Georgia, 5. The increase needed for the entire country is 15 per cent and is covered by the above schedule. Other states than those named should breed no fewer sows than last year.

The result of these increases will be to provide sufficient animals to make the meat that is absolutely essential to the feeding of our armies. Pork can be transported more readily and economically to troops in the field than can any other meat. Great supplies of bacon must go to the boys in khaki at the front. Unless now a larger number of sows are bred, the amount of meat we will require next year will not be available.

Number of Hogs Less.
The estimated number of hogs is 4,000,000 less than it was a year ago in this country; and in the face of this we need more hogs than ever before. How can we get them? By breeding sows at once.

The exportation of pork products has increased since the war began and will continue to increase during the length of the war. The foreign countries are devoting their farming energies to food and feed rather than livestock production, and they must have meat and they must get a large part of this supply from us.

During the last three months the price of hogs in the United States has been on an average, more than twice as much as the average price for the five years from 1911 to 1915. In view of the large crop of feed-stuffs in sight, however, it is believed that farmers will see the wisdom of taking every reasonable step to increase the supply of hogs and hog products.

WILL HAVE CHARGE OF COUNTY PRECINCTS

Dr. Joseph R. Harker Will Have Charge of Y. M. C. A. War Fund Work Outside of Jacksonville—Plans an Aggressive Campaign.

At the request of Dr. Rammelkamp, the chairman of the Morgan County War Fund, I have accepted the vice-chairmanship, to have charge of the precincts in the county, outside of Jacksonville. These outside precincts are expected to raise at least \$6,000.

The canvass is to be closed by November 19, and should be begun at once. The following are the chairmen and lieutenants in each precinct and the amounts to be secured. I will be at the Campaign Headquarters, in the room recently occupied by the Atlantic Cafe, on the west side of the square, two doors north of Ayers Bank and hope to see as many of these chairmen and lieutenants as possible on Friday and Saturday to assist them to plan the work in their precincts. There will also be a meeting of these precinct leaders on Sunday afternoon, at the close of Senator Sherman's address at the Opera House, and it is hoped that there will be a full attendance. Letters and reports should be addressed to me at Campaign Headquarters. The time is short, the call is urgent. Let every man respond promptly. Call me by phone if you cannot come in.

Frank Byrns has reasons for believing that this remarkable weather will speedily come to an end or at least not continue thru another week. Next Thursday, Nov. 15, Edgar P. Ryan, representing a Detroit fur house, will come to the Byrns store for the 15th annual fall display of furs. The records show that on every one of the 17 previous visits of Mr. Ryan that the weather has been either unseasonably warm or very rainy. And so Mr. Byrns based on this experience, was ready yesterday to make a wager that next Thursday will either be a beautiful mild day or rain, which is so much needed in the community, will be falling.

SPRAINS! RUB PAINS AND SWELLING AWAY

Don't Suffer, Go About Your Duties—Relief Comes the Moment You Apply "St. Jacob's Oil."

Don't stay crippled! Rub this soothing, penetrating oil right into the sprain, ache or strain, and out comes pain, soreness, stiffness and swelling. Nothing else penetrates, heals and strengthens the injured muscles, nerves, tendons and ligaments so promptly. It doesn't burn or discolor the skin and cannot cause injury. Don't suffer! Get a small trial bottle from any drug store now—limber up! Rub the misery right out. A moment after "St. Jacob's Oil" is applied you cannot feel the slightest pain or soreness, and you can go about your regular duties.

"St. Jacob's Oil" conquers pain. It has been used effectively for sprains, strains, soreness and stiffness for 60 years—six gold medal awards.—Adv.

STUDENTS "PEP" UP FOR MILLIKIN CONTEST

Big "Thuse" Meeting Held in College Gym Thursday Evening.—New Yells Practiced and Students Make Stirring Speeches.

Illinois college students held a big "pep" meeting in the gymnasium Thursday evening at 7 o'clock. There was a large gathering of friends and enthusiasm ran high thruout the evening.

Carl Hill acted as yell leader and a number of yells were rehearsed and the manner in which the boys and girls entered into the spirit of the meeting assures some good rooting for the team Saturday. Paul Watkins presided and proved most capable in introducing the various speakers, all of whom predicted that Millikin would be compelled to show her best wares Saturday.

Plans also were discussed for a big parade to be held either this afternoon or Saturday morning. It is hoped that the parade can be held this afternoon but President Rammelkamp could not be located to give his consent for the affair so it may not be given until Saturday morning.

Those who spoke Thursday evening were: Capt. Whisler, Manager Newell, Tomlinson, Bradbury, Goveia, Tanner, and Garrison who represents Monmouth in the oratorical contest this evening. The following young ladies also were called upon for brief talks: Misses Mary Alexander, Ruth Chipchase, Irene Kaune, Clarabel Yeahling.

Oratorical Contest Tonight. Westminster church, 8 o'clock.

HOLDING TEACHERS EXAMINATION.

A teachers' examination is in progress in the office of H. H. Vascenellos, county superintendent of schools. Examinations are held by the superintendent in accordance with the state law three times each year. In November the number of applicants is always smaller than at the other stated periods. Those who took the examination yesterday were Florence Collins, Mitchell, S. Dakota; Elmo Calaway, Meredosia; Elsie Holloway, Winchester; Dorothy Kennedy, Waverly; Fannie Masters, Lynnville; Myrtle Shelton, Murrayville; Emma Smith, Chapin; Vincent Spaenhower, Waverly; M. W. Spainhower, Waverly; Mildred Tribble, Franklin; Edna Brockhouse, Chapin.

Captain Kirby, who is taking an enforced vacation from his duties at the postoffice because of blood poisoning in his right hand is somewhat improved. The blood poison has been bothering him now for the past eight days and he thinks it resulted from a scratch on his hand from a harness buckle.

Mr. and Mrs. Arch Pitts of Peculiar, Mo., are visiting Mrs. Pitts' mother, Mrs. Emma Richardson, of South Main street.

NEW YORK ATTORNEY SEEKS ILLINOIS HEIRS

The following letter received by the Journal last evening from John J. Dwyer, an attorney of New York, may be of interest to some residents in this locality. According to the letter there is a large sum of money awaiting a claimant in the eastern metropolis. The letter follows:

John J. Dwyer,
Attorney at Law,
61 Broadway, New York, N. Y.
November 6, 1917.

The Journal, Jacksonville, Ill. Gentlemen:
About the time of the Civil War a family named Mahan or Meahan went from this state to your section of Illinois. According to the best information obtainable the family consisted of the father, mother, two sons and two daughters. One of the sons was named William; we do not know the given name of any other member of the family. It is said the other son did not accompany the family to Illinois but went to South America to do railroad work. If any of these children are living they are entitled to upwards of \$10,000, and if dead leaving descendants the latter are entitled thereto.

If you will publish this letter it may come to the notice of some one who can give us information concerning the family.

Yours truly,
John J. Dwyer.

Young Women Awaiting The Great Crisis

Of all the vital times in life, the birth of a baby is the climax of nature's most wonderful evolution. After a period of anxious waiting, the hour arrives for the advent of a new life. Nature must be aided during this waiting period if the pain and danger of the crisis is to be avoided.

Three generations have found great relief from the many discomforts of approaching motherhood, by the safe, time-honored massage, "Mother's Friend". It gently softens every fibre, cord, tendon and ligament. The drawn skin becomes soft and elastic. Tension and strain upon the expanding abdominal muscles is relieved when baby arrives; morning sickness or nausea usually is not felt and the crisis is passed with infinitely less pain and danger.

"Mother's Friend" has been used by expectant mothers with the greatest success for over forty years. Get a bottle from the druggist today and write the Bradfield Regulator Co., Dept. E, 200 Lamar Building, Atlanta, Ga., for a valuable book brimful of useful information. The book will be mailed to you without charge. Do not by any means neglect to begin the use of "Mother's Friend"; the preparation is undoubtedly a real and wonderful aid to nature in her work.

Once Headed for Poor House —Now Well Off

Craving for Drink Removed

A prominent business man in a Middle Western town freely acknowledges that he owes his success to the Keeley Treatment. Not many months ago he was struggling in the grasp of the liquor habit; his business was falling because of neglect; his health was poor, and he was on the road to the poorhouse. Some true friends saw his condition and advised him to try the Keeley Treatment.

Just in time he came to The Keeley Institute. The safe, scientific Keeley Treatment has restored him to a normal condition. His health is good, his family happy, his business flourishing, and he no longer craves liquor. He is more valuable to himself, his family, his employer. He is master of himself. He is again a loving and loved member of a happy family. This is only one of thousands of similar cases, varying merely in details, which could be mentioned.

If you know men and women who need it, tell them about the Keeley Treatment—no harmful drugs, no ill effects, no nausea, no confinement. Just a short time spent in healthful, beautiful Dwight, with refined surroundings and all inclination for strong drink vanishes. The best of food and lodging. Treatment under skilled physicians. Write for information. Correspondence confidential. The Keeley Institute, Dwight, Ill. Nearly 40 years of continuous success.

MANY FOOTBALL GAMES SCHEDULED FOR SATURDAY

Missouri-Nebraska Game in West and Pittsburgh-Washington and Jefferson in East Most Important Contests.

Chicago, Nov. 7.—Many football teams will be in action throughout the country Saturday. With the big three Harvard, Yale and Princeton out of the running this year, the best game in the east looks to be Pittsburgh and Washington and Jefferson. Pittsburgh on past form should be returned the winner.

In the west the game between Missouri and Nebraska in the Missouri Valley conference will attract more attention than any other with the odds in favor of Nebraska. Other important games are that between Kansas and Oklahoma and the intersectional game between Michigan and Cornell.

A CHILD HATES OIL.

CALOMEL PILLS FOR LIVER AND BOWELS

Give "California Syrup of Figs" if Cross, Sick, Feverish, Constipated.

Look back at your childhood days. Remember the "dope" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little insides are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs". Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.—Adv.

STOMACH ACTS FINE!

NO INDIGESTION, GAS, HEARTBURN, ACIDITY

"Pape's Diapiesin Fixes Sick, Sour, Upset Stomach in Five Minutes"

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs.

Pape's Diapiesin is noted for its speed in giving relief; its harmlessness; its certain, unfailing action in regulating sick, sour, gassy stomachs. Its quick relief in indigestion, dyspepsia and gastritis, when caused by acidity, has made it famous the world over.

Keep this wonderful stomach sweetener in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat something which does not agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eructations of acid and undigested food—remember as soon as Pape's Diapiesin comes in contact with the stomach it helps to neutralize the excessive acidity, then all the stomach distress caused by it disappears. Its promptness, certainty and ease in overcoming such stomach disorders is a revelation to those who try it.—Adv.

U. S. ARTILLERY UNIT RETURNS FROM FRONT

Men were Tired But Enthusiastic After Encounter with German Forces — French People Celebrated "Home Coming."

With The American Army In France, Wednesday, Nov. 7.—(By The Associated Press)—The first American artillery unit to establish contact with the Germans came back to its billets today. The men were tired and muddy but still as enthusiastic a lot of soldiers as ever came out of gun pits. The artillery had a longer stay at the front than the infantry and they came back, men and horses, wet to the bone, covered with mud and ready to sleep.

Their "home-coming" was one that will long be remembered in this section of France. It was late in the day when long lines of marching soldiers and straining horses were seen rounding a small mountain many miles away and soon reached the village.

The band started a tune that brought a smile to the face of even the most tired artillerymen in the column. It was "The Campbells Are Coming". Some of the artillerymen cheered and the bearers of the Red Battery Pennants raised themselves in their saddles and waved the pennants.

The entire command was immediately drawn up on a hillside and a gun, covered with camouflage paint, was drawn out in front. On the gun shield an artilleryman had written in chalk: "The first gun for the Germans." The colonel in command spoke to one of the townspeople a moment and addressing the men told them the people of the village wished to do honor to the gun and its crew and to the American army.

Band Played National Airs

The children gathered around and placed a floral wreath over the grim barrel and a bunch of wild flowers inside the empty case of the first shot fired. The regimental band then played the American and French National anthems.

That was all the ceremony, but the sight of Americans returning from combat with the Germans, cheered the populace of the village so that when the troopers dismounted many old men and many women came up to them, either to shake hands or to put their arms affectionately around their shoulders. There is not much sentiment in the makeup of an American artilleryman. His one idea is that he is in France to fight, so it took a moment or two for the men to decide to accept the demonstration of approval.

Even when this was done the Americans were more or less embarrassed and many, whose business for some days has been confined to killing Germans, actually blushed.

Tonight the artillerymen turned in at 6 o'clock. Tomorrow they will not be called out until hours after the regular time. The men were very tired, having marched for many hours under unfavorable conditions and eating their short rations while perched astride a horse or swinging on top of a gun carriage. The horses were worn out and some laid down as soon as they reached their beds of straw.

All Anxious to Go Back

Despite the hardships not a man was heard to grumble except about the fact that no mail from home was waiting for him. Every one declared enthusiastically that the firing of shells at the boche would be "fine business". All were anxious to go back again.

In this command there was not one casualty despite the length of its stay at the front and the fact that the Germans shelled the American artillery heavily several times. The officers said that the night the American trench was raided the artillery got into action quickly and poured a counter barrage into No Man's Land. They were sure they prevented all the Germans from reaching the trench and that some of the Germans never got back alive. The officers and men were proud of their ability to handle their guns in this manner.

The members of the crew which fired the first shot at the Germans admitted that they enjoyed their experience greatly. One gunner remarked that he would rather have had that experience and honor as a "buck private" than to be a major-general. The crew is composed of youngsters. They come from South Bend, New York, Minneapolis, Chicago, Baltimore, New Orleans and Douglas, Ariz.

After a short rest this artillery contingent will be sent to other camps to instruct other artillerymen who have not yet been at the front.

FILE APPLICATIONS TO RAISE FREIGHT RATES

WASHINGTON, Nov. 8.—To complete formal records in the pending 15 per cent freight rate increase case, eastern railroads today filed with the interstate commerce commission written applications for permission to raise rates 15 per cent, except for rates on which increases were granted several months ago. The roads promised to preserve established differentials and rate groupings.

The railroads proposed including livestock and meat traffic in the fifteen per cent increase and it was reported tonight that the carriers probably will offer no additional evidence on that subject relying upon the presentation made by their executives and council of what they described as a serious financial condition confronting the lines.

ARRESTED BY INSPECTORS

Laredo, Texas, Nov. 8.—Lieutenant Hansburg and Lieutenant Loeschner who escaped from Fort McPherson, Georgia, Oct. 23, were arrested this afternoon by customs inspectors Robert Runney and John Chamberlain at a point six miles below Laredo near the Rio Grande. They were turned over to military authorities.

JACKSONVILLE BANKER'S FRIENDS ELATED

"Twelve years ago I became afflicted with stomach trouble which steadily became worse until 2 years ago I frequently became prostrated with colic attacks and bloating. My doctors wanted to operate for gall stones. I wished to avoid an operation and on advice of a friend tried Mayr's Wonderful Remedy with excellent results as since taking it about 2 years ago my trouble has entirely disappeared. It is a simple harmless preparation that removes the catarrhal mucous from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. FORESEES SHORTAGE AT END OF WAR

English Political Economist Says Signs of Famine and Revolution are Already Visible—Makes Appeal for Economy.

London.—(Correspondence)—"After the war the world will be weary, cold and hungry and if we are to avoid famine and revolution something will have to be done at once," said Sidney Webb, a political economist, in a speech at the London School of Economics. He asserted that peace would come suddenly and unexpectedly and then the world would be forced to face a great shortage, signs of which were already visible.

The wheat stocks of the world, he said, had been reduced to the smallest amount ever known and there would be a shortage of one pound of wheat a day to each person. Flocks and herds all over the world would be much diminished. Even the pig was rapidly disappearing. Metals, coal, timber, hides and leather and all building materials would be at famine scarcity.

One-eighth of the world's population, he declared, was engaged in non-productive work. The economy that could be set up against that was very small.

There would be a long interval between demobilization and the repairing of the devastation and waste. During that interval there would be unemployment in all the countries, causing an unproductiveness that would mean rather a money famine than a food famine.

"We should now be making preparations to revictual the world if we are to avoid a shortage developing into a famine," said Mr. Webb. Sir Arthur Japp, Director of Food Economy, in a speech at Huddersfield also referred to the world shortage of food, the possible shortage of money and men and appealed for economy in every direction.

STOCKS SUFFER WORST DECLINE OF YEAR

Fall 5 to 8 Points on The Liquidation Caused By The Political Crisis in Russia.

New York, Nov. 8.—Stocks experienced the worst decline of the year falling 5 to 8 points on the liquidation caused by the political crisis in Russia. Bonds also were affected to an unusual degree and remittances to Russia and Italy established Northwest records since the war.

The session opened with every promise of further betterment but on first advice from Petrograd the market reacted sharply. Selling in enormous volume continued up to the final hour when short covering brought temporary recoveries of 2 to 4 points. These were largely lost in a fresh wave of liquidation just before the feverish close.

Standard rails and the most favored industrial showed greatest weakness. All the Pacific, grangers, coalers and trunk lines fell to new minimums. United States Steel reacted from 3 1/2 to the year's new low record of 88, closing at 90, a net loss of 4 1/2 and other equipments and specialties registered similar or more serious impairment.

Sales 1,000,000 shares.

Liberty bonds held at par but the 3 1/2s fell from 91 1/2 to the new low quotation of 90 1/2. Bond sales (par value) \$1,775,000.

EARLY
SHOPPING

You resolved last year that you would shop early this Christmas. Live up to that good resolution. We have done our part by placing gift goods on display several weeks earlier than usual. The sending of gifts to soldiers means that such goods must be bought early. To make it easy for you to shop early we are prepared to store your purchases until you are ready to present or mail them. Come in and look around. You are Welcome.

IOWA GOVERNOR AGAINST SOCIALISM

Asserts That in Existence of Dictators "Lies a Fore America May Some day Meet."

Kansas City, Nov. 8.—"Unless we stem the Socialism in this country, winning of the war and driving of Prussianism from the face of the earth will have been a useless task. I have no quarrel with coal dictators and food dictators but in their existence lies a fore America may some day meet," declared Governor William L. Harding of Iowa, in an address here tonight before the Republican Club of Missouri. Governor Arthur Capper of Kansas also addressed the meeting.

Governor Harding's remarks came in explanation of the principles of American government in which he had declared this is primarily a "nation of parties."

"No great nation can long exist under strictly Socialistic principles," he declared. The speaker asserted that he did not wish to have his remarks construed as an adverse criticism of the administration but that he felt it the privilege of the opposition honestly to disagree with the party in power. The duty of the Republican party at the next election he said, would be to organize and present its candidates as in times of peace and leave it to the voters to decide the outcome.

SUFFRAGETTES HISS PRESIDENT WILSON

NEW YORK, Nov. 8.—President Wilson was hissed at a meeting held here today under the auspices of the National Woman's party in celebration of the suffrage victory Tuesday in New York state. Several of the women who had served as pickets at the white house and who were arrested because of their activity appeared in workhouse garb.

It was when Dudley Field Malone was speaking that the president was hissed and Mr. Malone rebuked the outburst. "Don't do that," he said, "you must not blame the president. He is isolated, away from the stream of things, surrounded by groups of advisers, and he hasn't got the truth about suffrage. He will get it."

BEGIN INVESTIGATION INTO STRASSNY DEATH

NEW YORK, Nov. 8.—District Attorney Swann tonight began investigation of the death of Mrs. Sarah M. Stiasny, a wealthy widow, in her apartments in this city yesterday morning, which previously had been reported to him as a suicide. Dr. Otto Schultze, medical assistant to the district attorney said after examination he believed Mrs. Stiasny had been murdered. A bullet hole was found in Mrs. Stiasny's left temple and another below the heart. Only one exploded shell was found in the revolver beside the body. The body was found by Richard Epstein, a cousin of Mrs. Stiasny, who lived in the apartment and who also is an executor of her will.

ASK HOOVER FOR HELP

El Paso, Texas, Nov. 8.—Congressman Thomas L. Blanton, today telegraphed Herbert C. Hoover, food administrator, and William G. McAdoo, secretary of the treasury, urging immediate action to relieve conditions resulting from drought in the range country between Fort Worth and El Paso which he called "tragic."

"Thousands of farms are as bare as public roads, thousands of farmers have been forced to seek work to avoid starvation," he said. "Ranches are without grass or water. Shipments have been impossible for lack of cars. The only salvation is in feeding cattle on the ranges thru the winter. I deem government assistance necessary."

DIFFICULTIES ADMISED.

Salt Lake City, Utah, Nov. 8.—The controversy between the Citizens' Protective association and organizers of the International Mill and Smelter Workers Union at Bingham has been satisfactorily adjusted. It was stated tonight by W. H. Rogers of Albia, Ia., commissioner of conciliation for the federal government and W. M. Kneer, industrial commissioner of the state of Utah. The organizers are to continue their work without interference.

AERONAUTIC INSTRUCTOR DEAD

Boston, Nov. 8.—William Eastman, Jr., of Evanston, Ill., an instructor in the government school of aeronautics at the Massachusetts Institute of Technology died today from injuries received Friday when he was struck by the propeller of an aeroplane engine which he was explaining to a class.

ENGLISH CALL IT
"ALARMIST STATEMENT"

London Official Announcement Takes Exception to A. P. Correspondent

London, Nov. 8.—The following official statement was issued tonight: "A statement of a correspondent of The Associated Press at Italian headquarters appeared in the British press today. This statement set out to remind the allies that something more than assurances were needed for getting reinforcements in men and munitions to the threatened Italians and purported to reflect the feeling of Italians who were represented as distrusting the allied efforts to help them. It also was stated that the enemy masses were so overwhelming that nothing but effective reinforcements will turn the tide."

"This alarmist statement is absolutely uncalled for and is calculated to do grave harm by suggesting that the seriousness of the military situation in Italy is not appreciated by her allies and that the latter are not giving her the support she requires. There is no truth whatever in these assertions. The statement that the enemy masses are overwhelming is an absurd exaggeration."

The despatch to which the foregoing British official statement refers was sent by The Associated Press correspondent at Italian headquarters on Nov. 7. This correspondent is an American staff man, who was present at the beginning of the Italian retreat and accompanied the Italian army back to its present position.

The despatch was passed by the Italian military censors at General Cadorna's headquarters and as it was sent thru France, also passed the French censorship.

HUNGER STRIKERS FED THRU TUBES

WASHINGTON, Nov. 8.—Miss Alice Paul, head of the woman's party and Miss Rose Winslow, hunger striking in the District jail hospital were fed late today by the jail authorities. Liquid food was given thru rubber tubes, breaking a fast of something over 72 hours.

Whether force was employed may be always a matter of dispute. Dr. J. A. Gannon, jail physician, said both women took the nourishment without protest and were now in a satisfactory physical condition. At the woman's party headquarters it was asserted such a thing was impossible. The women pointed to Miss Paul's record at Holloway jail in London, where she endured tortures thru forcible feeding when she was an aide of Mrs. Pankhurst some years ago.

Miss Paul and Miss Winslow who are serving terms for so-called picketing of the white house went on hunger strike in order to compel the jail officials to provide for their fellow pickets the same special food—eggs and milk—given them when they were transferred to the hospital section.

TESTIFY AT COURT MARTIAL TRIAL

Witness Who Received 57 Wounds From Negro Rioters and Escapes Testifies from Cot.

San Antonio, Texas, Nov. 8.—A witness who received fifty seven wounds from negro rioters and escaped, another witness who picked up a pewter canteen cup which may lead to identification of a rioter and a third who identified Sergeant Henry afterward killed, as one of the leaders of the negro soldiers of the twenty fourth infantry in their march toward Houston the night of August 23, testified this afternoon at the court martial trial of sixty three of the negroes charged with murder, mutiny and rioting.

John Sample who found the pewter cup in San Felipe street the night of the riot brought it to the court martial with cartridges, shells and clips he also had found. An officer took the cup pushed back the folding handle and displayed the number "24" and the letter "T" indicating the cup belonged to a member of Company I of the 24th infantry.

Corporal Foreman, 21 years old, sat on a cot and told of his escape from death at the hands of the rioters after he had 57 wounds. Henry Pratt, head waiter of the Houston Club, identified Sergeant Henry, whom he said he knew, as one of the negro leaders.

DISTILLERY INCREASES OUTPUT

Peoria, Ill., Nov. 8.—The Great western Distillery, a trust house, today increased its daily grind from six thousand bushels to which it dropped when the prohibition of the use of foodstuffs in intoxicating liquors for beverage purposes went into effect Sept. 8, to 10,000 bushels. War orders for alcohol and great ease in securing corn is announced as the reason.

The Atlas Distillery, another trust house has abandoned the use of molasses in manufacturing alcohol being able to secure an adequate supply of corn.

AWARD CHAMPIONSHIPS

Chicago, Nov. 8.—The annual boxing championship of the Central A. A. U. today were awarded to the Cleveland Athletic Club, which expects to decide them at Camp Sherman, Chillicothe, Ohio, for the benefit of the soldiers.

The wrestling championships were awarded to the Detroit Athletic Club, which, with the Illinois A. C. and Hamilton Club of Chicago, also will stage the swimming championships. The dates are to be set later.

WANT TO INCREASE MILEAGE BOOKS

Washington, Nov. 8.—Permission to increase interchangeable passenger mileage book rates from 2 to 2 1/2 cents a mile was asked of the Interstate Commerce Commission by southern railroads.

KISHKIN GIVEN POWERS
TO RE-ESTABLISH ORDER

LONDON, Nov. 8.—A Reuter despatch from Petrograd dated Wednesday says the Kerensky government had invested Minister of Public Welfare Kishkin with extraordinary powers to re-establish order in Petrograd. One of the first measures undertaken was the removal of Colonel Polkovnikov as governor of Petrograd and the appointment in his stead of General Bagratuni, chief of the garrison staff. Bagratuni however, refused to accept the post.

The minister of the interior, the correspondent adds drew up a circular to all government commissaries in the provinces, informing them of the disorders and requesting them to take all measures to suppress uprising in their districts. Minister of trade and industry Konovaloff at the same time appealed to the troops at the front to rally round the provisional government and oppose the workmen's and soldiers' delegates movement.

SHOES

THERE are men and women who, because their feet require shoes made on a corrective last, feel they have to wear homely shoes.

We would like to talk to all these people and show them a few points about Walk-Over shoes.

Admitted to be leaders in stylish shoes, the Walk-Over factories devote time and brains to making shoes that fit and are comfortable at the same time. For both men and women, they have designed a corrective series of models that gradually educate the muscles of a weak foot to where it can wear a proper-looking and proper-fitting shoe. We have fitted thousands of shoes to thousands of feet and have given satisfaction.

We are equipped to do it. Let us tell you.

LITTLE ROAD WORK IN PROSPECT FOR 1918

Government's Order Restricting Use Of Coal Cars Will Interfere With Shipment Of Rock and Gravel—Exceptions Made for Certain Classes Of Improvements—Local Case Cited.

A representative of the state highway department recently expressed the opinion that there will be very little highway building the coming year. He said that if state roads are built it will necessarily be in localities where the road materials are at hand and it is not necessary to transport them on flat or coal cars. This view was taken owing to the recent order requiring that all coal cars must be used exclusively for this purpose.

In the past coal cars have been utilized for the movement of sand, gravel, crushed rock and various other materials which enter into building operations. The use of the flat cars has also been restricted. The order, however, has some limitations and where building work is in progress in which the government has some special interest the use of cars for hauling materials to be used in this work will be permitted. For example locally, some work is in progress at the plant of the Jacksonville Packing Co. The contractor needed some more material and telephoned to the shipping company and notified them the material was needed for completing the work at the packing plant. The shipping company said there would be no difficulty about sending material for this work as the government recognizes the important relationship of the packing business to the public. This however, does not apply to road building or other work of that class.

While the government order is stringent in this regard, it is entirely possible that some modification will be made before the busy season for road building begins. When the warm months come the demand for coal will be much lessened and in all probability some cars can be spared from this service for the haulage of building materials without in any way endangering the interests of the public.

MORGAN COUNTY WILL
HAVE FARM ADVISOR

Enough Subscriptions Secured to Make Proposal a Certainty—Meeting for Organization Will be Held Saturday—Membership List Still Open.

Sidney B. Smith who representing the United States Department of Agriculture has been soliciting the pledges in Morgan county to help establish and maintain a farm bureau and county advisor will conclude his work in the county this week having secured enough pledges to meet the requirements of the Department of Agriculture. Not as many subscriptions have been secured as are desired to get the best results from a farm bureau, but others are in sight and the campaign will proceed until the desired number is secured.

Those citizens who wish to cooperate in this movement and secure its direct benefits and who have not already signed pledge cards are urged to do so at once.

President Black of the Morgan County Farmers' Club has called a meeting of all subscribers to be held in the Circuit Court room at the Court House in Jacksonville on next Saturday at 10:30 a. m. to complete the organization of the Club and to take immediate steps to secure an advisor in order that he may get to work in the county in ample time for next Spring's farm activities.

Notices of this meeting have been mailed each subscriber. With the notice has been sent a request that each subscriber advise at once the particular work which he wants the advisor to do for him, his community and the county. Subscribers are earnestly requested to fill out the questionnaire and return the same promptly so that the committee which will be appointed to secure an advisor may know the lines of work the subscribers want him to give his attention to.

All subscribers are urged to attend the important meeting to be held Saturday and take part in the preliminary organization of the farm bureau. All persons who intend to join in the movement are invited to attend.

Letter to Subscribers.

The letter and questions sent to subscribers are quoted below:

Jacksonville, Ill., Nov. 7, 1917.

Dear Sir:

Mr. Charles S. Black, President, has called a meeting of the Morgan County Farmers' Club, in the Circuit Court room, at the Court House in Jacksonville, at 10:30 a. m., next Saturday, Nov. 10th, to complete the organization of the Club and to arrange for a farm advisor.

As a member of the Club you are urged to attend this important meeting.

Invite a neighbor to come with you. He will be given an opportunity to sign a membership card.

Do not fail to attend this meeting.

Very truly yours,
Sidney B. Smith,
Emergency District
Demonstration Leader.

Kindly return this sheet in the enclosed envelope (no stamp required) with answers to the following questions:

What do you want the farm advisor to do

1. For you on your farm?
2. For your community?
3. For the county?

NOTICE

If you owe us your account is now due. We earnestly ask for prompt payment of all bills.

JNO. CORRINGTON WRITES
FROM SOUTHERN CAMP

Morgan County Boy, Now Stationed at San Antonio Camp, Expects to Be Appointed Sergeant in Near Future.

John Corrington, who is with U. S. troops at San Antonio, Texas, has written a letter to his friends, Messrs. Mullenix & Hamilton, telling of life in the Texas camp. Young Corrington enlisted a few weeks ago at Springfield and was sent to the southern camp. He seems to be well pleased with army life. As is true of practically all army letters, this soldier wrote on the stationery of the army Y. M. C. A. He says:

"I am in Texas now. The weather here is fine. In the daytime it is warm enough to take shower baths in the open, yet the nights are cold enough for two good blankets. The dust is pretty bad as there has been no rain since August.

"The reason that I have not written sooner is that I have not had the time. I have been here since about 2:30 Thursday morning. At Jefferson Barracks they kept us pretty busy. I haven't done any work or drill at all since I have been here. They are not as well established here as they were at the Barracks. We sleep in tents here and eat out of doors.

"At Jefferson Barracks we were fed in a mess hall and slept in wooden barracks. I had the opportunity to work in the mess hall three days while I was there. I served in the dining room 2 days and in the store room one day. Some of the boys worked in the cow or hog barn, some scrubbed the kettles and pans in the kitchen and so on. I also had a chance to work in the woods on afternoon.

"We had a fine trip down here. In some places they were picking cotton. We went thru Little Rock, Ark. and Austin, Texas, but it was dark at both places. Everyone sure tries to get the highest price for cats and everything from a fellow in uniform.

"Harold McGinnis and I are still together. He has been appointed appointed temporarily as sergeant-major. If he makes good he will get a warrant. He has charge of the company office temporarily. I am orderly in the office. I think I will get a sergeant's rank as I passed the chauffeur's test. I don't know for certain. The Y. M. C. A. sure does the great work. Tell all the boys hello and you be sure and write Tell Potter I haven't started to smoke or chew yet. Will have to close. As ever,

John".

INTERCOLLEGIATE
ORATORICAL TONIGHT

Will be Held in Westminster Church This Evening—Bryan Underwood Will Represent Illinois College.

Illinois students are looking forward hopefully to the Intercollegiate oratorical contest which will be held in Westminster church this evening. The schools which will be represented are: Illinois College, Wesleyan, Monmouth, Knox and Eureka.

This event is always closely contested and tonight promises to be no exception to the rule. Bryan Underwood will be Illinois' representative and by many he is considered one of the most able men the college has ever entered in the contest. Mr. Underwood's subject is "Robert Emmet, Irish Patriot."

The oratorical contest is one of the most important events of the college year. All of the schools rank high in this branch of work and the speakers from the various institutions have been selected after hard contests and represent the best of the student body. The oratorical contest needs and deserves the support of the public and Jacksonville citizens should respond generously and greet the contestants with a packed house.

DECATUR HAS WATER SUPPLY TROUBLES

Jacksonville is one of many cities now especially disturbed by the water problem. In Decatur the authorities are discussing the proposal of building a great impounding reservoir a few miles distant from the city on an elevated spot. Other storage and supply plans are being considered and it is certain that something must be done to secure a permanent and adequate supply for the city. A small river runs not far from Decatur and Jacksonville people may find consolation in the thought that even with this source of supply at hand the Decatur problem is still vexing.

SHEDD URGES AID FOR
ARMY Y. M. C. A. FUND

Confident Chicago Will Give \$3,000,000 for Boys With U. S. Forces.

"Two-thirds of the human race is at war and any influence that is ennobling, cheering and inspiring is well worthy of support," said John G. Shedd, president of the Marshall Field & Co., in discussing the Y. M. C. A. war fund and its importance to the allied cause.

"We shall need at least \$35,000,000 from the people of the nation to support Y. M. C. A. war work until next July," he said. "Thirty-five times as many men will be served as are now members of the association. About \$10 for each Sammy abroad will be expended from this fund.

"The money will go for army 'Y' buildings on the battle fronts, for supplies for the association secretaries who are in charge on the firing line, for a thousand-and-one items that will give new heart to our boys in khaki.

Big Sum for Our Allies.

"It is estimated that about \$10,000,000 of the fund will be spent for Russian, Italian and French soldiers. These governments after observing the splendid results achieved by American and British Y. M. C. A. secretaries in France have asked the American Y. M. C. A. to establish itself in their armies. It is desirable from every standpoint that this be done.

"This fund of \$35,000,000 will take care of the army Y. M. C. A. activities until July 1, 1918. It may seem a large fund, but when one considers the millions upon millions of soldiers that will be favorably affected if these plans carry thru, it is only a tithe.

Ask \$3,000,000 of Chicago.

"Chicago is asked to subscribe \$3,000,000 of the fund, and I'm sure that Chicago will respond when it comes fully to understand that this money is going to thousands of Chicago boys in camp. As has been well said, the army Y. M. C. A. furnishes the home touch, the home influence in an environment of war and desolation.

"I agree with those who feel that such a force may spell victory for the allies, for only by keeping our soldiers in good spirits, in good health and as nearly normal as possible can we properly perform our part. It will be a glorious thing for the nation and for the Y. M. C. A. if this mighty leavening influence is to turn the tide eventually on the side of better civilization and a nobler democracy."

MAKING THE ASBESTOS SWEAT

The 4-Ply Copper-Clad Range Wall

Heating the asbestos with a blow torch, as illustrated, or with a spirit lamp or with a fire in the range, the moisture in the asbestos is driven out and to the cold side where it condenses on the sheet of copper. But for the sheet of copper it would condense on the range body which would rust out in a short time. This sheet of copper never rusts and keeps the moisture from the range body. Internal rust was never heard of in a Copper-Clad range because of this sheet of copper and the dry air space.

Note the 4 walls and the dry air space. This air space not only assures a dry range body but it holds the heat like a thermos bottle. It saves a shovel of fuel every meal; over a thousand shovels a year.

A 3-Ply Imitation

The sweaty nature of the asbestos is conceded in the above construction, so the inner lining next to the fire is plated with copper. Some use aluminum plating. If this was solid copper or solid aluminum a foot thick it could do no good because of the wrong side of the asbestos.

Notice that this copper plated inner wall simply clamps the asbestos tight against the outer casing or range body. The moisture in the asbestos always goes to the cold side against the range body where it starts rust from the inside. You don't even suspect it until you see the rust coming through; then it is too late.

To put so-called rust proofing on the inside next to the fire is like climbing on top of the roof to get out of the rain.
